Technical specifications

Weight incl. rotator	335 kg
Felling diameter	38,5 cm
Delimiting diameter max.	35 cm
Delimiting diameter min.	3 cm
Advance force	10,5 kN
Opening width – rollers	38,5 cm
Opening width – delimiting knives	44 cm

Requirements for the carrier machine

Hydraulic flow	100–140 l/min
Hydraulic pressure	250 bar
Drive power	52 kW
Operating voltage	24 V DC

DIMENSIONS

- > Slim design for excellent handling
- > Optimum felling position of the head
- > Saw unit with manual chain tension adjustment

USER INTERFACE

- > High-resolution 6.5" TFT - colour display
- > Production data export via USB interface
- > Efficient control system

**INTELLIGENT TECHNOLOGY.
INFINITELY VARIABLE FORCE
ADJUSTMENT.
COMPACT DESIGN.**

PROCESSOR KINEMATICS

- > 4 mobile delimiting knives
- > Two-roller drive
- > Proportionally adjustable pressure force of the delimiting knives and drive rollers
